Standard Tuning / No Capo / Tempo about 112-116 bpm

So unaware of your surroundings
such chaos abounding
The noise inside your head
a script for the dead

Some mutual friends did state
a warrior you chose for a mate
But forget what they say
the supreme being saves the day

Far above the fray
I vote God every day
To crane my neck to the sky
so anxiety passes me by

We emerge for the better
it's almost to the letter
A soldier first I went wrecking
to smooth a path for trekking

To screen those opposed
fair maid once proposed
To expose from the coffers
an olive branch to offer

Break bread with those now saved
we filter from the grave
The captain watches far
mother hen of the yard
